

MILOŠ BRAJEVIĆ

Belgrade, Serbia (Open to Remote) | (+381) 69 11 68 255 | brajevicms@gmail.com
[linkedin.com/in/brajevicm](https://www.linkedin.com/in/brajevicm) | github.com/brajevicm

TECHNICAL SKILLS

Frontend | JavaScript, TypeScript, React, Redux, Next.js, Gatsby, CSS, SASS, styled-components

Backend | Java, PHP, Node.js, Express, Fastify, MongoDB, MySQL, RabbitMQ, Memcached, Redis, Nginx, Apache

Testing/Deployment | Jest, Cypress, Jenkins, Travis-CI

Developer Tools | Docker, Git, npm, Webpack, Babel, Figma, JetBrains

EXPERIENCE & PROJECTS

Senior Frontend Engineer | Smallpdf

Jul 2022 - Present

Implementation of eSign and document storage solution

TypeScript | React | Redux | Node.js | Jenkins | Webpack

- Reduced the build step in Jenkins pipeline from **(±17 mins)** to **(±8 mins)**, which resulted in 470k EUR yearly savings on average by introducing caching, parallelization and optimizations to custom Webpack plugins
- Improved Google Lighthouse performance by **(±19%)** across all pages through better Webpack bundling configuration and bundle analysis
- Improved cross-team collaboration between frontend engineers by organizing a trip to a conference and actively sponsoring others' work
- Participated in code reviews and contributed to the development of engineering best practices and standards
- Actively participated in user interviews to better understand the needs and wants of our ICPs

Technical Lead, Frontend Engineer | KupujemProdajem

Jul 2018 - Jul 2022

Revamp of the whole tech stack

React | Redux | Next.js | Cypress | Node.js | PHP | Jenkins | Docker | Nginx

- Architected and led the transformation of the tech stack from a multi-page app to a single-page app, which in turn reduced total infrastructure costs by **(23%)**
- Adopted and implemented modern frontend development techniques, such as React and Next.js, to improve code quality, maintainability and site performance
- Built reusable UI components and design systems to ensure consistent and accessible user interfaces across multiple platforms
- Mentored junior frontend engineers, providing guidance and support on best practices, coding standards, and technical skills
- Conducted technical interviews for potential hires

Teaching Assistant | Belgrade Institute of Technology

Jan 2018 - Jun 2018

Frontend Bootcamp

JavaScript | React | Redux

- Conducted practical classes in JavaScript and Web development to two generations of students
- Helped **(41%)** of the students get the job offer or internship position in less than 3 months after finishing the bootcamp

Fullstack Engineer | Speedr

Jun 2017 - Jan 2018

Platform for cognitive learning

JavaScript | React | Redux | Java | Spring Boot | MySQL

- Created and maintained scalable and efficient code using JavaScript frameworks such as React and Redux
- Implemented responsive design techniques to ensure cross-device compatibility and optimal user experience

Software Engineer Intern | TERACOMM, part of ALLTERCO

Dec 2016 - May 2017

Client-facing dashboard for bulk messaging service

JavaScript | PHP | MySQL | Android

- Worked collaboratively with backend developers and designers to integrate API data and create seamless user experiences
